REFEREE AID - RANGED COMBAT

Ranged Combat for the purpose of this aid is defined as combat at range by infantry forces. This aid also covers the use of machine guns. When targeting vehicles or using heavy weapons, it is recommended to use the other **Referee Aids** accordingly.

Taking **Overwatch** counts as a slow action if taken in conjunction with using a telescopic sight (which otherwise receives it's normal benefits). If the player took an action before Overwatch, they must wait a turn before firing. pg. 66.

One handed shooting can be done with pistols with no penalty. Firing a submachinegun or carbine suffers a -2 modifier. Assault Rifles can only be fired one handed at short range with a -3 modifier. pg. 65.

Combat initiated

Players may **swap turns** if able to communicate. pg. 55.

Draw initiative cards. Lowest card goes first.

Surprise/Ambushes go first. Surprises reference pg. 54. Ambushes reference pg. 60.

Participant banks 2 fast actions, or 1 fast and one slow action.

Movement or fast action(s) taken

See list of all actions, pg. 56.

Helping others uses an action akin to their slowest action pg. 55.

Take Overwatch Position (fast action)

Free Actions

Fast Action Aim

Aiming reference pg. 63.

Thrown weapons use Mobility skill instead of Ranged Combat pg. 63.

Quick Shot AGL + RC: -1 to-hit modifier for Pistol/Carb/SMG; all others get -2

Determine all remaining To-Hit Modifiers. The attack is a slow action.

Ammo dice can only be used with weapons that have a RoF. If a weapon has no RoF or only a single shot is fired, no ammo dice are used. pg 66.

Add ammo dice in accordance with weapon ROF

Machine guns use STR and HW, unless firing from a tripod or vehicle mount, in which case they use AGL and HW. pg. 65.

Ranged attack - Roll AGL & Ranged Combat dice, plus any ammo dice used

Target Missed (End of participant's turn)

Push?

Player may reroll ◎ and 🗡 at their own discretion.

Reroll AGI, RC, and any ammo dice that aren't 💥s, 🗡s, or ◎s.

Weapon jams can be cleared with a successful Ranged Combat or Heavy Weapons roll. pg. 66.

MISHAP: A single 💥: -1 Rel from weapon. Two or more 💥s: Weapon jam

Hit?

Weapon base DMG. Add +1 for each extra ◎. Add +1 for each extra 🗡.

Roll hit location 1d6

Hit Location

1	Legs
2-4	Torso
5	Arm
6	Head

Cover/Armor?

If armor level is 2 steps higher than the base weapon damage, the attack is fully deflected. pg. 73

Apply weapon's armor modifier if there is one.

Reduce damage by armor value.

Apply armor ablation to armor or cover. Roll 1D6. -1 Rel for each 💥 rolled. pg. 73.

Greater than critical threshold?

If remaining dmg = the weapon's critical threshold +2, roll twice on the crit table. pg. 74.

Roll on the critical tables pg. 76

Information on recovering from damage and criticals can be found starting on pg. 73.

Apply damage and any criticals. Target also suffers 1 stress on a failed CUF roll.

Cover/Armor Ex.

Concrete Wall	**3**
Brick Wall	**2**
House Wall	**2**
Indoor Wall	**1**
Sandbags	**4**
Barbed Wire	**-**
Flak armor	**1**
Steel helmet	**1**
Plate armor	**2**
Kevlar helmet	**1**

Cover:
Partial Cover: Covers all body parts except arms and head.
Full cover: Covers all body parts. Targets can still be fired on full cover with a -3 modifier.

Any 🗡 on the ammo dice?

Target rolls CUF. If suppressed, target goes prone and takes 1pt of stress dmg

Target Missed (End of participant's turn)

Assuming your base attack hits, any additional 🗡 can be used to increase damage *or* to cause a hit of the base weapon damage on an additional target in the same hex. You cannot hit a second target that would be harder to hit than the original target. pg. 66.

Suppressed targets also lose both actions on their next turn.
If target is a PC, can also roll their unit morale dice to avoid suppression, in addition to their CUF dice. Panic spreads. Any participants in the same hex as a failed CUF roll must also make a CUF roll to avoid suppression. pg. 67.

To Hit Modifier Ex. pg. 65:

Range S/M/L/E	**-/-1/-2/-3**
Player Specialties	**+1**
Scope (slow aim)	**+1/+2**
Target in Same Hex	**-1/-2**
Target Hex Terrain	**-1/-2**
Target Prone (no same hex)	**-1**
Called Shot	**-2**
Target moving	**-1**
Firing from moving vehicle	**-2**
Firing from elevation	**+1**
Light/Dim/Dark	**-/-1/-2**
Rain/Wind/Snow	**-1**
Dense Smoke	**-3**
Target in Full Cover	**-3**
Large Target	**+2**
Small Target	**-2**
Defenseless (Same Hex)	**+3**

Ammo: Pips rolled on ammunition dice represent the total amount of ammo fired. You cannot fire more ammo dice than the number of bullets you have remaining in your magazine. Remember to subtract ammo fired, and reload when your magazine runs dry! Reloading is a fast action with a successful Ranged Combat roll, otherwise it is a slow action. pg 66.

Friendly Fire: If your ranged fire crosses a hex containing friendly fighters, those fighters must make CUF rolls to avoid suppression. Also, if your shot misses, roll 2d6 - a ◎ means that a friendly has been hit. A second ◎ will increase the damage by 1. pg. 65.

Bows: Bows must be nocked with a fast action before firing. Arrows can be collected with a fast action, or with a medical roll (slow action) from a body. A failure causes 1pt of damage to the victim. pg. 67.

Shotguns: Shotgun base damage is reduced by 1 at medium range, by 2 at long range, and by 3 at extreme range. Even shots that cause no damage can cause suppression. pg. 64.

TERRAIN TYPES

TERRAIN	PAVEMENT	FIELD	SHRUB-LAND	DEBRIS	FOREST	FOLIAGE	SWAMP	SHALLOWS	BLOCKING	INDOORS
VISIBILITY	∞	∞	∞	∞	3	1	∞	∞	None	∞
RANGED ATTACKS	–	–	–1	–1	–1	–2	–	–	n/a	–1
MOVEMENT	–	–	–1	–2	–1	–3	Special	Special	n/a	–2
COVER	No	No	No	Yes (3)	Yes (2)	No	No	No	n/a	Yes (1)
INFILTRATION	–2	–1	–	+1	+1	+2	+1	–	n/a	+1

Foot Movement:
In a single fast action, you can move 2 combat hexes (20m). To move further, you need to make a Mobility roll modified by the terrain type of the hex you're in. For every ◎ you roll, you can move an additional hex. If you fail the roll, you move no further.
Stance: In order to run, you must be standing. Going from prone to standing is a fast action. Dropping to prone is a free action.
Backpack: Carrying a backpack gives a -2 modifier to all Mobility rolls. Dropping your backpack is a free action.
Crawling: Crawling characters are prone, and move 1 hex (10m) instead of 2. Additional mobility successes result in 1 additional hex being moved, but no more.
Elevation: Movement cost to gain elevation is 2 hexes instead of 1. You must succeed on a mobility roll to crawl up a hill.
Swamps and Shallows: Movement counts as crawling in this terrain. Actual crawling is impossible.

TWILIGHT: 2000
